MOTORS

**TRITON**

# ***Yeah, you'll get through that.***

UTES ARE BUILT TO DO THINGS.  
THEY TOW THINGS, CARRY THINGS,  
SCRAMBLE DOWN STEEP THINGS  
AND UP THE OTHER SIDE.  
TRITON CAN DO THINGS YOU'VE NEVER  
SEEN FROM A UTE BEFORE.  
YOU CAN RELY ON IT TO TAKE YOU FURTHER.  
IF YOU'VE GOT THE STOMACH FOR IT.

***Triton. Work hard,  
play harder.***

» MODEL SHOWN Triton VRX in Titanium.

# TRITON

» MODEL SHOWN Triton VRX in Titanium.

## » MORE POWER

This generation **Triton** uses our most advanced, powerful and efficient diesel engine ever. Whatever the job asks for, you'll have the answer.

## » THE RIGHT SAFETY GEAR

Now you can go to work, hit the track or cruise through town knowing **Triton's** got you covered. A 5 star ANCAP rating is just the beginning.

## » NO ROAD NECESSARY

Where many utes stop short, **Triton** keeps going. There's super-low range on 4WD that lets you crawl like a tractor and a high range you can even use on the highway on 4WD GLS and VRX. It's all backed by New Zealand's best warranty.

## » BUILT TO WORK, AND UNWIND

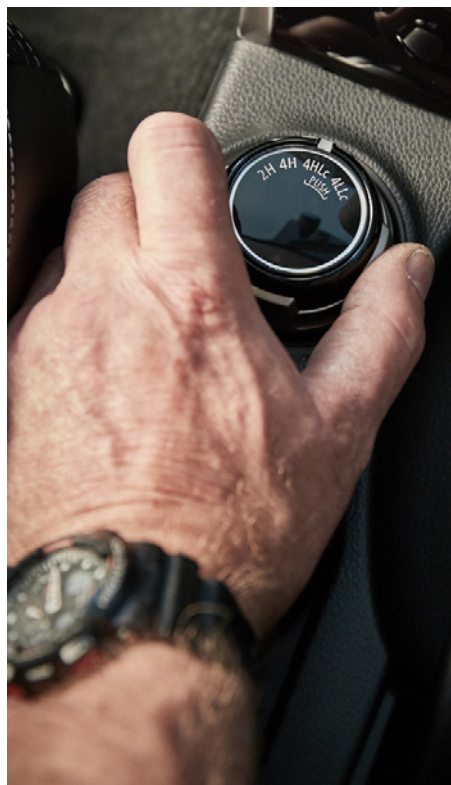

From tray configurations to turning circle, **Triton** is designed with hard work in mind. It's also very well-appointed and a welcome comfort at the end of a long day.

# 4WD you can count on

THE RIGHT 4WD SYSTEM CAN BE A REAL LIFE SAVER. TRITON USES THE BEST SYSTEM WE'VE EVER BUILT, AND THAT'S SAYING SOMETHING.

If building world-beating 4-wheel drives for Paris Dakar Rally taught us anything, it's that you need to over-engineer. You need to be prepared for conditions you've never encountered before. With **Triton**, you will be.

On **4WD GLS** and **VRX**, the Super Select 4WD system gives you easy access to the settings you need. The centre Diff Lock gives you a

60/40 torque split for maximum traction. It's all part of MATT; Mitsubishi All-Terrain Technology, which integrates 9 different systems to make **Triton** sure-footed on any surface.

You will appreciate **Triton's** ability to use 4WD high range on the open road. You can even switch it on at speeds of up to 100km/hr. Try that in another vehicle and you could kiss goodbye to your diff and your warranty.

Super Select also uses a 4th super-low range setting. It gives **Triton** a tractor-like ability to crawl through the worst, wettest, sludgiest conditions.

**4WD GLX** uses Easy Select, which lets you move between 2WD and 4WD settings on the move.

You might not need to take a full crew and a big load up a seemingly unscaleable slope. But you can.

» MODEL SHOWN Triton VRX in Titanium.

THE BEST WARRANTY ON, OR OFF-ROAD.

It's a testament to **Triton's** construction that it's covered by New Zealand's best warranty. The entire drivetrain is covered for 10 years / 160,000 km, with a 5 year / 130,000 km new vehicle warranty and 5 years Premium Roadside Assist. It's got your back wherever you go, which could be a lot of places.

# Boldly tow

OUTPUT IS A MAJOR FACTOR IN CHOOSING THE RIGHT UTE. ON TRITON THE POWER AND TORQUE ARE UP WHILE CONSUMPTION IS DOWN, THANKS TO OUR BEST DIESEL EVER.

You could choose a thumping big engine with a fuel bill to match, or take a smarter, more athletic approach to power. **Triton** uses an all-alloy, intercooled, Direct Injection Diesel with such a high output you'd be surprised to know it's a 2.4L 4-cylinder. You'll have 135kW of power and a huge 437Nm of very useable torque at your command. The other important numbers are the 3.1 tonne braked towing capacity and 965kg payload on 4WD GLS. Trailer Stability Assist keeps any size load in line.

The increase in efficiency is just as impressive. **Triton** returns first-rate economy figures between 7.1L and 7.6L per 100km across the range.

The other big consideration is the transmission. The 5-speed automatic incorporates Sports Mode that lets you drive it like a manual, with near-instantaneous shifts. The 6-speed manual gives you absolute connection to the vehicle and whatever surface you're driving on.

# Take it easy

YOUR TRITON CAN HANDLE ANYTHING THE WORK DAY DEMANDS. WHEN THE DAY'S DONE, IT LETS YOU GET AWAY FROM IT ALL IN TOTAL COMFORT.

**Triton** is very adaptable. You can choose the best configuration of tray and cab for whatever you need to do. Both chassis and wellside models give you a big carrying area and capacity. On Club Cab models, rear-opening doors make it easy for occupants to get out with their gear.

Another area where **Triton** really delivers is comfort. Double Cab models feature well-sprung, supportive bucket seats.

The driver has fingertip control of the audio system, cruise control and handsfree Bluetooth™ from the steering wheel, which is leather on **Triton** GLS and VRX. Every model features a touchscreen audio system, which also houses the reversing camera (Wellside models only) – a real help with

hooking up a trailer or parking in a tight spot, which is no sweat with the 11.8 metre turning circle.

Chilly mornings and baking hot summers are dealt with by the dual-zone climate control. There's no more fishing around for keys, thanks to keyless entry and push-button start on GLS and VRX, which also offer fog lamps and daytime running LEDs.

» SMARTPHONE LINK DISPLAY AUDIO  
Make calls, send messages, use maps, play music and more from your smartphone on VRX.

# Safety, tick

THERE ARE MANY PLACES TRITON CAN TAKE YOU TO. WHEREVER YOU GO, YOUR SAFETY IS WELL AND TRULY TAKEN CARE OF.

Hard work aside, the other job **Triton** is designed for is to protect its occupants.

The chassis is very rigid so it absorbs energy better and improves handling.

To help you steer clear of danger, every **Triton** model uses Active Stability Control and Active Traction Control combined with Multi-Mode ABS brakes with Electronic Brakeforce Distribution, which compensates for poor surfaces and heavy loads.

Within the body, there are 7 airbags and pre-tensioning front seat belts, with ISOFIX attachments for child seats. Even your trailer is safe, with Trailer Stability Assist on all models.

If you have to hit the anchors in an emergency situation, the Emergency Stop Signals will activate at speeds over 55km/hr to warn other motorists.

Speaking of speed, **Triton's** Speed Limiter can keep you under the speed limit and off the radar.

» [LEFT] DAYTIME RUNNING LIGHTS  
Better visibility and smart looks from daytime running lights on all models (LEDs on GLS and VRX).

» [BELOW] RAIN-SENSING WIPERS  
The moment the rain falls, your wipers activate automatically on GLS and VRX.

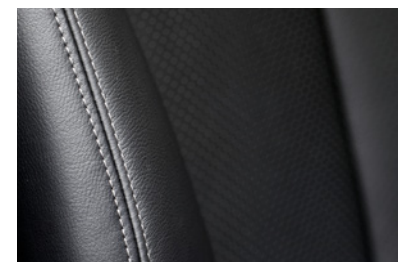

## All loaded up

TRITON HAS ALL THE GEAR YOU NEED FOR ANY SITUATION.

Overseas model shown.

» [ABOVE LEFT] KEY FOB  
Central locking and immobiliser keep your Triton safe on site (GLS and VRX key shown).

» [ABOVE] EASY ACCESS  
Rear opening doors on Club Cab.

» [LEFT] LEATHER SEATS  
VRX is as comfortable as it gets with smart leather seats, the driver's and front passenger's are even heated.

» [BOTTOM LEFT] ONE-TOUCH START  
Just press the button to start up and go on GLS and VRX.

# 10 | 5 YEAR YEAR

## DIAMOND ADVANTAGE

NEW ZEALAND'S BEST  
NEW CAR WARRANTY AND  
CUSTOMER CARE

### A VERY WELL MADE WARRANTY

---

There's no better protection for your new Mitsubishi than our **Diamond Advantage Warranty**. In fact, there's no better new vehicle warranty available in New Zealand. Whichever Mitsubishi\* you see yourself in, wherever the road takes you, you'll be thoroughly covered from bumper to bumper.

Our **Diamond Advantage Warranty** comprises a **10 year/160,000 km powertrain warranty** that covers everything from engine to axle; a **5 year/130,000 km new vehicle warranty**; and **5 years Premium Roadside Assist**, which looks after you if the unexpected should happen. It's the warranty designed for complete peace of mind.

---

Visit **[mmnz.co.nz](http://mmnz.co.nz)** for terms and conditions
